## System News

### Welcome to CROWNWeb!

Below is a listing of the CROWNWeb features in this release. The production environment contains startup data copied from SIMS, the ESRD Patient Registry maintained by the ESRD Networks.

- Users will be able to search, add, save, edit, submit, and print facility records.
- Users will be able to search, add, edit, submit, and print facility personnel records.
- Users will be able to admit to and discharge patients from a facility.
- Users will be able to add, edit, and submit patient treatment records.
- Users will be able to search, edit, and submit a patient record.
- Users will be able to enter information associated with the 2728 form for Initial, Supplemental, and Re-entitlement patients (including Initial Dialysis, Initial Transplant, Supplemental Training, Supplemental Transplant, and Re-entitlement forms).
- Users will be able to enter a 2746 form for a patient.
- Users will be able to print blank 2728 and 2746 forms, along with pre-populated 2728 and 2746 forms for patients.
- Users will be able to verify patients and patient data using the PART feature.
- Users will be able to search, add, edit, and submit clinical lab test results and vascular access information for patients.
- Users will be able to add, edit, and submit facility preferences for clinical data.
- Users will be able to create and print a patient roster for a facility.
- Users will be able to run Audit reports for all data added, updated, or deleted in CROWNWeb.

Internet Explorer 7 users should verify the following setting before using CROWNWeb. Close all Internet Explorer windows and open a new Internet Explorer browser window. Then go to Tools -> Internet Options, select the Advanced tab, scroll to the Security section and ensure the "Enable Native XMLHTTP support" option is NOT selected. If the option is selected, apply this change, then return to the application.
